# Component: Test Data Continued

data/shirts.py

```
shirt = {'color': 'blue', 'size': 'xl'}
```

tests/test\_simple.py

```
from my_test_framework.data import shirts
def test_add_shirt(self, shirt):
    # navigate to the product page for `shirt`
    # verify that you can find `shirt`
    # add `shirt` to cart
    # verify that `shirt` is in cart
```

# Component: Test Data Continued

The best place for your test data is where it can be shared among all of your tests, and your models.
